VAL-MATIC VALVE ACTUATION

Val-Matic manufactures a wide variety of manual and power actuators that include traveling nut, worm gear and cylinder actuators along with the ability to adapt their valves for mounting custom actuators. Val-Matic valves are easily adaptable for mounting custom actuator such as: vane, spring-return, rack and pinion, electro-hydraulic, air/oil and other specified cylinder or electric motor actuators. All Val-Matic actuators are built in accordance with AWWA Standards. Features include characterized closure, externally adjustable stops and the ability to handle valve output torques up to 180,000 Ft-Lbs. Visit www.valmatic.com for more information on actuation capabilities.
